Multiple-Award Construction Contract (MACC)
Task Order Proposal Request (TOPR)

MEMORANDUM FOR ALL ACTIVE JBSA-MACC CONTRACT HOLDERS

FROM: 502 CONS / PKAAB
1655 Selfridge Ave., Bldg. 5450
Lackland, TX 78236

SUBJECT: TOPR MPLS253838: Demo Capehart Housing at JBSA-Lackland, TX

I. GENERAL INSTRUCTIONS

1. This is a competitive selection conducted in accordance with (IAW) Federal Acquisition Regulation (FAR) Part 16.505(b)(1). Orders placed under FAR 16.505 Indefinite-Delivery Indefinite-Quantity (IDIQ) contracts are not source selections and are not subject to FAR 15.3 procedures. Accordingly, issuance of an order under this Task Order Proposal Request (TOPR), should an award be made, shall follow the ordering procedures outlined in FAR Part 16.505(b)(1) and in the JBSA MACC IDIQ ordering guide.

2. The proposal submitted in response to this TOPR must comply with the terms and conditions of the JBSA MACC IDIQ contract, requirements as stated in the TOPR, attachments, and the Statement of Work (SOW). All claimed capabilities to meet the requirements shall be realistic and are subject to verification by the Government. Non-conformance with these instructions may result in rejection of the proposal, an unfavorable proposal evaluation, or being deemed ineligible for award.

3. Agreement Clauses. All clauses that are contained in the IDIQ basic contract will apply to the awarded task order; however, refer to Section V (Task Order Specific Information) for specific TO clauses.

4. General Description of Work. This project provides comprehensive demolition, environmental remediation, environmental services and site restoration services. The scope includes the complete removal of all remaining residential structures, supporting facilities, utilities, pavements and associated infrastructure within the approximately 35-acre site, followed by environmental cleanup and restoration of the area to a safe, stable and natural condition. Remove rubbish and debris from the project site.

5. Period of Performance (POP) & Commencement of Work. The POP for this requirement is **325 calendar days** after notice to proceed. A Notice to Proceed (NTP) will be issued to commence the activities associated with this requirement.

6. Points of Contact (POCs). All inquiries, comments, or questions related to this TOPR, and acquisition must be addressed only to the following POCs:

ROBERT GALLEGOS
Contract Specialist
1655 Selfridge Ave, B5450
JBSA Lackland, TX 78236
robert.gallegos.4@us.af.mil

JOHN E. WALTERS
Contracting Officer
1655 Selfridge Ave, B5450
JBSA Lackland, TX 78236
john.walters.9@us.af.mil

7. Notice to Offerors: Funds are not presently available for this project. No award will be made under this solicitation until funds are available. The Government reserves the right to cancel this solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse an offeror for any costs.

8. Discrepancies. If an Offeror believes the requirements in these instructions contain an error, omission, or are otherwise unsound, the Offeror shall immediately notify the Contracting Officer (CO) in writing with supporting rationale as well as the remedies the Offeror is asking the CO to consider as related to the omission or error.

9. Site Visit. A site visit has been tentatively scheduled for **Tuesday, 03 Mar 2026, at 09:00 a.m.** local San Antonio, TX Time. Attendance is not mandatory but strongly encouraged; no other site visit accommodations will be made. All individuals attending the site visit will meet at JBSA-Medina Training Annex, **Capehart Housing (Hillside Dr & W. Perimeter)**. Attendees are limited to four participants per offeror.

10. Base Access. Lackland is not an open base, and you must have a valid ID. Anyone who does not have the necessary identification to enter the base must request a Base Access Form and send it back to robert.gallegos.4@us.af.mil. Base pass requests must be submitted no later than 10 days prior to the site visit. It is your responsibility to confirm that base pass requests have been received by 502 CONS. Base access requests not providing at least 10-day advance notice may not be processed in time for the site visit.

11. Questions: The deadline to submit questions is **Tuesday, 17 Mar 2026 at 3:00 p.m.** local San Antonio, TX time via email to robert.gallegos.4@us.af.mil. No additional questions will be accepted after the deadline. The Government will provide a response to the submitted questions by **Tuesday, 31 Mar 2026 at 3:00 p.m.**

12. Proposal due Date: The proposal due date is established as **Tuesday, 14 Apr 2026 at 3:00 p.m.** local San Antonio time. Proposals received after the date/time specified will not be considered.

13. Procurement Integrated Enterprise Environment (PIEE) Solicitation Module. The electronic copy shall be submitted using the PIEE Solicitation Module via the link sent to each contractor. Offerors are encouraged to upload files to the PIEE Solicitation Module with plenty of time to ensure upload of files and submission is sent before the due date and time. Failure to submit the

proposal timely due to technical delays experienced with the PIEE Solicitation Module will not be considered a justification for failure to submit proposals timely. It is the contractor's responsibility to periodically check PIEE for solicitation updates as the system may not generate automatic emails notifying them of changes. Please note that failure to do so will not result in a solicitation response time extension.

14. Interchanges. Interchanges are fluid interaction(s) between the CO and the contractors that may address any aspect of the proposal and may or may not be documented in real time. The Government intends to make award based on the initial proposal submissions without conducting interchanges. Therefore, each offer should contain the Offeror's best terms from a price standpoint. The Government reserves the right to hold interchanges if, during the evaluation, it is determined to be in the best interest of the Government. However, the Government reserves the right to conduct interchanges using Interchange Notices (IN). Offeror responses to INs will be considered in making the order selection decision. The Government may hold Interchanges with one, some or all offerors at its discretion, if determined to be part of the fair opportunity process.

15. Acceptance Period: All proposals submitted must be valid 90 calendar days after proposal due date or, if conducted, when interchanges have been completed, whichever is later.

16. Magnitude of Construction: Pursuant to FAR 36.204 and DFARS 236.204, the magnitude of this project is between $25,000,000 and $100,000,000.

17. Ombudsman. In accordance with AFFARS 5352.201-9101, Ombudsman (July 2023), an Ombudsman has been appointed to hear and facilitate the resolution of concerns from Offerors, potential Offerors, and others for this acquisition. Before consulting with the Ombudsman for the ordering activity, the Contractor is encouraged to first address complaints with the ordering activity's Contracting Officer for resolution. When requested by the Contractor, the task-order and delivery-order Ombudsman for the ordering activity may keep the identity of the concerned party or entity confidential, unless prohibited by law or agency procedure. Please refer to the POC information at the Ombudsman clause in the base IDIQ.

II. PROPOSAL PREPARATION INFORMATION

1. General. The proposal shall be clear, concise, and shall include sufficient detail for effective evaluation and for substantiating the validity of stated claims. The proposal should not simply rephrase or restate the Government's requirements but, rather, shall provide convincing rationale to address how the Offeror intends to meet these requirements. Offerors shall assume that the Government has no prior knowledge of their facilities or experience and will base its evaluation on the information presented in the Offeror's proposal.

2. Proposal Preparations. Offerors submitting a proposal in response to this TOPR shall submit in one (1) electronic volume to include the information listed below. All proposal information shall be submitted in either MS Word or PDF format except for the Construction Cost Estimate Breakdown which shall be submitted in MS Excel format.

a. Cover Page. The cover page shall include the offerors' contract number, small business status/categories, company primary, and alternate points of contact with email/phone and who is authorized to contractually obligate the company, CAGE Code, and EUI number.

b. Proposal Assumptions & Exceptions. Offerors shall clearly identify any exception to the terms and conditions and shall provide complete supporting rationale. This information shall be provided in the format and content of the table below within the Offeror's proposal cover letter. If no exceptions are taken, include a statement stating so within the proposal cover letter. The Government reserves the right to determine any such exceptions are unacceptable. Any exception determined unacceptable by the Government may result in the Offeror's proposal being determined unacceptable and ineligible for award.

TOPR Assumptions & Exceptions			
TOPR Document	Page/ Paragraph	Requirement/ Portion	Rationale
SOW, ITO, Evaluation Factor, etc.	Applicable Page and Paragraph Numbers	Identify the requirement or portion to which Assumption is made OR Exception is taken.	Describe why the requirement can/will not be met OR rationale

c. Bid Schedule. The contractor shall provide their total amount per CLIN based on the bid schedule. Offerors shall price each of the CLINs. Failure to price each CLIN may deem your proposal unacceptable and not evaluated in the absence of interchanges.

d. Construction Cost Estimate Breakdown. The pricing information submitted should fully support the SOW requirements for each major functional element specified in the SOW and Specifications. A cost breakdown using the pricing spreadsheet should be submitted addressing at minimum the following pricing elements and instructions.

(1) The cost elements in the Construction Cost Estimate Breakdown shall include the quantities and prices for each construction work element by Divisions.

(2) The line item prices shall have quantities that are reasonable and adequate to support the completeness and reasonableness of their proposed prices to complete this project.

(3) The cost elements in each Division shall include (but not limited to): materials, equipment, and labor (unit, extended amounts), overhead, profit, etc.

(4) In the case of multiple CLINs, the information shall be segregated by the total price for each CLIN as specified in the Bid Schedule.

III. PROPOSAL EVALUATION INFORMATION

1. Basis of Award. Award will be made in accordance with the basic contract ordering procedures, the procedures specified in the TOPR and on the basis of price and price related factors only. An order may be awarded to the contractor who is deemed responsible IAW FAR 9.1, as supplemented, whose proposal conforms to the TOPR's requirements (to include all stated terms, conditions, representations, certifications, and all other information required by the TOPR instructions) and is judged based on the evaluation of price the lowest complete and reasonable price.

2. Proposal Evaluation. All timely proposals received will be evaluated for completeness; proposal completeness is a pre-requisite for Price Evaluation. All conforming and complete proposals will be evaluated for price and ranked from least to greatest price based on the Total Evaluated Price (TEP). Therefore, the lowest priced offeror based on the TEP will represent the Best Value for the Government and eligible for task order award. If the lowest priced offeror is complete, that offer represents the best value for the Government and the evaluation process ceases at this point. Award shall be made to that offeror without further consideration to any other offers.

a. Proposal Completeness. To determine completeness, all proposals will be evaluated in accordance with the instructions in the Proposal Preparation (Section II). It is the offeror's responsibility to verify the proposal and supporting documentation meets the instruction requirements of Section III of this solicitation. The Contracting Officer may conduct Interchanges to address the completeness of proposals submitted. Incomplete proposals will then be eliminated and excluded for price evaluation in the absence of Interchanges.

3. Price Evaluation. Price proposals should support an appropriate technical approach required to successfully complete the project in accordance with the Statement of Work and any other specifications and/or drawings. The proposal will be evaluated for (1) Completeness, (2) TEP and (3) Reasonableness. Offerors whose price is determined to be incomplete or unreasonable will not be considered for award.

a. Completeness. The proposal will be reviewed to determine the extent to which all the price elements have been addressed. The contractor's proposed price and other information will be evaluated to ensure continuity and traceability of prices and between the initial proposal and any revisions thereto. The review will determine the adequacy of the contractor's proposal in addressing and fulfilling the TOPR requirements.

b. TEP. The Government will rank the proposals from lowest price to highest price, in order to establish a TEP. Prices will be calculated by multiplying the quantities for CLIN 0001 by the CLIN's unit price to determine the total amount for CLIN 0001. The same calculation process will be used for any subsequent CLINs. The total amount for each CLIN will then be summed to equal the offeror's TEP. If the lowest priced proposal is complete and reasonable, this contractor's proposal represents the best value to the Government and award will be made to that contractor.

c. Reasonableness. For a price to be reasonable, it must represent a price to the Government that a prudent person would pay in the conduct of competitive business. The Government will determine prices fair and reasonable through the use of one or more of the price analysis techniques at FAR 15 .404-1(b)(2).

A cost price using the pricing spreadsheet (Attachment # 7) shall be submitted addressing at minimum the following pricing elements and instructions.

IV. TASK ORDER SPECIFIC INFORMATION

1. Wage Determination. The applicable wage determination for this requirement is WD TX20260231 (Attachment 12).

2. Climatology Data 2026. http://www.weather.gov/wrh/climate?wfo=ewx

3. Bid Guarantee Requirement. The bid guarantee requirement under FAR 52.228-1 "Bid Guarantee" is applicable for this acquisition.

4. Bonding Requirements. The contractor shall provide bonding IAW FAR 52.228-15 Performance and Payment Bonds - Construction (Jun 2020). Performance and payment bond are required within 10 calendar days after task order award

5. Insurance Requirements. In accordance with the Basic IDIQ contract, FAR 52.228-5 Insurance-Work on a Government Installation is applicable for this Task Order. The contractor shall provide and maintain the kinds and minimum amounts of insurance required in FAR 28.307-2.

6. Applicable Provisions and Clauses. All clauses that are contained in the Basic IDIQ contract will apply to this Task Order. The following clauses are or have been tailored and are applicable to this specific TO.

a. The following clauses are added or have been tailored and are applicable to this specific TO.

FAR 52.211-10, Commencement, Prosecution, and Completion of Work (Apr 1984)
The contractor shall be required to (a) commence work under this contract within **10 calendar days** after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than **325 calendar days** after issuance of Notice to Proceed. The time stated for completion shall include final cleanup of the premises.

(End of Clause)

FAR 52.211-12 Liquidated Damages -- Construction (Sep 2000)

(a) If the Contractor fails to complete the work within the time specified in the contract, the Contractor shall pay liquidated damages to the Government in the amount of **$1,084.00** for each calendar day of delay until the work is completed or accepted.

(b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

(End of Clause)

FAR 52.228-1 Bid Guarantee (Sept 1996)

(a) Failure to furnish a bid guarantee in the proper form and amount, by the time set for opening of bids, may be cause for rejection of the bid.

(b) The bidder shall furnish a bid guarantee in the form of a firm commitment, e.g., bid bond supported by good and sufficient surety or sureties acceptable to the Government, postal money

order, certified check, cashier's check, irrevocable letter of credit, or, under Treasury Department regulations, certain bonds or notes of the United States. The CO will return bid guarantees, other than bid bonds-

(1) To unsuccessful bidders as soon as practicable after the opening of bids; and

(2) To the successful bidder upon execution of contractual documents and bonds (including any necessary coinsurance or reinsurance agreements), as required by the bid as accepted.

(c) The amount of the bid guarantee shall be 20 percent of the bid price or $3,000,000.00, whichever is less.

(d) If the successful bidder, upon acceptance of its bid by the Government within the period specified for acceptance, fails to execute all contractual documents or furnish executed bond(s) within 10 days after receipt of the forms by the bidder, the CO may terminate the contract for default.

(e) In the event the contract is terminated for default, the bidder is liable for any cost of acquiring the work that exceeds the amount of its bid, and the bid guarantee is available to offset the difference.

(End of Clause)

FAR 52.219-14 Limitations on Subcontracting (DEVIATION 2021-O0008)

FAR 52.225-11 Buy American –Construction Materials under Trade Agreements. (DEVIATION 2020-O0019) (Jul 2020)

FAR 52.228-15 Performance and Payment Bonds – Construction (DEVIATION 2020-O0016) is applicable.

FAR 52.236-4 Physical Data (Apr 1984) is applicable (see fill-ins):
(a)Physical Conditions. See Attachment 01 - SOW.
(b)Weather conditions. See Attachment 11 - Climatology Data
(c)Transportation facilities. N/A
(d)Other: Drawings and specifications at Attachment 01- SOW.

(End of Clause)

DFARS 252.232-7006 Wide Area Workflow Payment (Jan 2023) (see fill-ins):
(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(ii) For fixed price line items—

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

Construction and Facilities Management Invoice

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	F87700
Issue By DoDAAC	FA3016
Admin DoDAAC	FA3016
Inspect By DoDAAC	FA3016
Service Approver (DoDAAC)	FA3016
Service Acceptor (DoDAAC)	FA3016

(g) WAWF point of contact.

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

Contracting Officer: john.walters.9@us.af.mil
Contract Administrator: robert.gallegos.4@us.af.mil

(End of Clause)

DFARS 252.236-7001 Contract Drawings and Specifications (AUG 2000)
(e)The work shall conform to the specifications and the contract drawings identified on the following index of drawings: Please see SOW.

(End of Clause)

6. For any questions or information regarding this solicitation, contact robert.gallegos.4@us.af.mil.
